
RockPlot2D

Use this interactive window to view and edit your RockWorks 2D images – borehole and sample location point maps, contours and colorfill maps, cross-sections, profiles and other diagrams such as stereonets and piper diagrams.

RockPlot3D Viewer

Use the RockPlot3D viewer to view 3D images: solids, surfaces, fences, 3D objects, plan view maps, site diagrams and much more!

ReportWorks

Use the ReportWorks window to lay out pages for printing and publication- use any of the images that you've created in your final presentation.
